WEISS ALTERNATIVE MULTI-STRATEGY FUND

CLASS K – WEISX
INVESTOR CLASS – WEIZX

ANNUAL REPORT

OCTOBER 31, 2022

WEISS ALTERNATIVE MULTI-STRATEGY FUND

Dear Shareholders:

The Weiss Alternative Multi-Strategy Fund (the “Fund” or “WEISX”) was launched on December 1, 2015 in response to investors’ search for a daily liquid, actively managed, multi-alternative strategy. The Fund seeks to provide returns with moderate volatility, lower drawdowns, and reduced correlation to the overall performance of bond and equity markets. The Fund employs a risk-controlled approach to liquid and diversified strategies. The Fund seeks to generate its return from three sources:

- (1) Core Market Neutral: Employs approximately 20 industry-focused, differentiated strategies and aims to generate performance through security price dispersion instead of market direction.
- (2) Growth: A pro-cyclical strategy typically offering exposure to the US equity markets.
- (3) Defensive: Income-generating strategy created to provide high liquidity and capital preservation, typically offering exposure to US treasuries and corporate credit.

In the trailing 3-month period (Aug 01, 2022 – Oct 31, 2022), WEISX returned -7.57% net of fees while its benchmark, the Bloomberg US Corporate Bond Index returned -8.98%.

Overall portfolio annualized volatility for the trailing 3 months was 14.42%.

For the trailing 1-year, WEISX returned -18.99% net on 11.76% volatility. Over the same time-period, the Bloomberg U.S. Corporate Bond Index benchmark returned -19.57% on 8.50% volatility.

In the trailing 3-month period, the Core Market Neutral strategy returned 2.63% gross, the Growth strategy returned -5.13% gross, and the Defensive strategy returned -9.68% gross. The current month end gross exposure weights across the three strategies are as follows: Core Market Neutral 47.48%, Defensive 37.14%, and Growth 15.37%.

WEISX illustrated its effort to minimize volatility and mitigate downside risk during periods of increased financial market instability. The Core Market Neutral strategy continued to contribute a return stream with low levels of correlation to other asset classes which complemented the pro-cyclical Growth sleeve and the Defensive sleeve.

Sincerely,

/s/ Weiss Portfolio Managers

WEISS ALTERNATIVE MULTI-STRATEGY FUND

Performance data quoted represents past performance; past performance does not guarantee future results.

The Bloomberg U.S. Corporate Bond Index measures the investment grade, fixed-rate, taxable corporate bond market. It includes USD denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

Gross performance is shown for illustrative purposes only and does not reflect the fees and expenses of an investment in the Fund.

Volatility/Standard Deviation is defined as a quantity calculated to indicate the extent of deviation for a group as a whole.

Correlation is a statistical measure of the degree to which the movements of two variables (stock/option/convertible prices or returns) are related.

Opinions expressed are subject to change at any time, are not guaranteed and should not be considered investment advice.

Diversification does not assure a profit nor protect against loss in a declining market.

Mutual fund investing involves risk. Principal loss is possible. Derivatives involve special risks including correlation, counterparty, liquidity, operational, accounting and tax risks. These risks, in certain cases, may be greater than the risks presented by more traditional investments. The Fund may also use options and future contracts, which have the risks of unlimited losses of the underlying holdings due to unanticipated market movements and failure to correctly predict the direction of securities prices, interest rates and currency exchange rates. The investment in options is not suitable for all investors. The Fund invests in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. These risks are greater in emerging markets. Investment by the Fund in lower-rated and non-rated securities presents a greater risk of loss to principal and interest than higher-rated securities. The Fund may use leverage which may exaggerate the effect of any increase or decrease in the value of portfolio securities or the Net Asset Value ("NAV") of the Fund, and money borrowed will be subject to interest costs. Small- and Medium-capitalization companies tend to have limited liquidity and greater price volatility than large-capitalization companies. Investing in ETFs are subject to additional risks that do not apply to conventional mutual funds, including the risks that the market price of the shares may trade at a discount to its NAV, an active secondary trading market may not develop or be maintained, or trading may be halted by the exchange in which they trade, which may impact the Fund's ability to sell its shares. The Fund may make short sales of securities, which involves the risk that losses may exceed the original amount invested.

Must be preceded or accompanied by a prospectus.

The Weiss Alternative Multi-Strategy Fund is distributed by Quasar Distributors, LLC.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

VALUE OF \$20,000 INVESTMENT (UNAUDITED)

The chart assumes an initial investment of \$20,000. Performance reflects waivers of fees and operating expenses in effect. In the absence of such waivers, total return would be reduced. Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed, may be worth more or less than their original cost. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance of the Fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by visiting www.weissfunds.com or calling 1-866-530-2690.

Rates of Return (%) – As of October 31, 2022

	<u>One Year</u>	<u>Five Year</u>	<u>Since Inception⁽¹⁾⁽²⁾</u>
Class K	-18.99%	1.90%	2.66%
Bloomberg U.S. Corporate Bond Index⁽³⁾	-19.57%	-0.32%	1.24%
Investor Class	-19.26%	1.54%	2.15%
Bloomberg U.S. Corporate Bond Index⁽³⁾	-19.57%	-0.32%	0.43%

(1) Inception Date of Class K was December 1, 2015.

(2) Inception Date of Investor Class was February 28, 2017.

(3) The Bloomberg Barclays U.S. Corporate Bond Index measures the investment grade, fixed-rate, taxable corporate bond market. It includes USD-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers. The securities that comprise the Bloomberg U.S. Corporate Bond Index may differ substantially from the securities in the Fund's portfolio. It is not possible to directly invest in an index.

The returns reflect the actual performance for each period and do not include the impact of trades executed on the last business day of the period that were recorded on the first business day of the next period.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

The Fund's gross expense ratio is 3.59% and the net expense ratio is 2.92% (as of the most recent prospectus dated February 28, 2022). The expense ratios stated here may differ from that of the expense ratios provided in the Fund's financial highlights herewithin due to the timing of financial information and the inclusion of acquired fund fees and expenses ("AFFE") in the prospectus only. The Fund's investment advisor has contractually agreed to waive a portion or all of its management fees and reimburse Fund expenses (excluding Rule 12b-1 fees, shareholder servicing fees, acquired fund fees and expenses, front-end or contingent deferred sales loads, swap fees and expenses, dividends and interest on short positions, taxes, leverage interest, brokerage fees (including commissions, mark-ups and mark-downs), annual account fees for margin accounts, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation) in order to limit the Total Annual Fund Operating Expenses to 1.50% of the average daily net assets of the Fund or by the Fund's investment advisor through at least February 28, 2023. The advisor may request recoupment of previously waived fees and reimbursed expenses from the Fund for three years from the date they were waived or reimbursed, provided that after payment of the recoupment, the Total Annual Fund Operating Expenses do not exceed the lesser of the Expense Cap: (i) in effect at the time of the waiver or reimbursement; or (ii) in effect at the time of recoupment.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

EXPENSE EXAMPLE (UNAUDITED) OCTOBER 31, 2022

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, and (2) ongoing costs, including management fees and other Fund specific expenses. The expense example is intended to help the shareholder understand ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the most recent six-month period.

The Actual Expenses comparison provides information about actual account values and actual expenses. A shareholder may use the information in this line, together with the amount invested, to estimate the expenses paid over the period. A shareholder may divide his/her account value by \$1,000 (e.g., an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses paid on his/her account during this period.

The Hypothetical Example for Comparison Purposes provides information about hypothetical account values and hypothetical expenses based on each Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid for the period. A shareholder may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, a shareholder would compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

The expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemptions fees or exchange fees. Therefore, the Hypothetical Example for Comparisons Purposes is useful in comparing ongoing costs only and will not help to determine the relevant total costs of owning different funds. In addition, if these transactional costs were included, shareholder costs would have been higher.

	<u>Annualized Net Expense Ratio (10/31/2022)</u>	<u>Beginning Account Value (05/01/2022)</u>	<u>Ending Account Value (10/31/2022)</u>	<u>Expenses Paid During Period⁽¹⁾ (05/01/2022 to 10/31/2022)</u>
Class K Actual ⁽²⁾⁽³⁾	2.79%	\$1,000.00	\$ 925.30	\$13.54
Class K Hypothetical (5% annual return before expenses) ⁽⁴⁾	2.79%	\$1,000.00	\$1,011.14	\$14.14
Investor Class Actual ⁽²⁾⁽³⁾	3.14%	\$1,000.00	\$ 923.00	\$15.22
Investor Class Hypothetical (5% annual return before expenses) ⁽⁴⁾	3.14%	\$1,000.00	\$1,009.38	\$15.90

⁽¹⁾ Expenses are equal to the Fund’s annualized expense ratio for the period multiplied by the average account value over the period, multiplied by 184/365 to reflect its six-month period.

⁽²⁾ Based on the actual returns for the period from May 1, 2022 through October 31, 2022, of -7.47% and -7.70% for Class K and Investor Class, respectively.

⁽³⁾ Excluding dividends on short positions and borrowing expense, your actual cost of investing in Class K and Investor Class would be \$7.28 and \$8.97, respectively.

⁽⁴⁾ Excluding dividends on short positions and borrowing expense, your hypothetical cost of investing in Class K and Investor Class would be \$7.63 and \$9.40, respectively.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

ALLOCATION OF PORTFOLIO (UNAUDITED) OCTOBER 31, 2022

LONG INVESTMENTS⁽¹⁾⁽²⁾

- (1) Data expressed as a percentage of common stocks, exchange traded funds, contingent value rights, escrow notes, warrants, purchased options, money market fund, long swap contracts, and long futures contracts as of October 31, 2022. Data expressed excludes securities sold short, written options, short swap contracts, short futures contracts and other assets in excess of liabilities. Please refer to the Schedule of Investments, Schedule of Written Options, Schedule of Open Swap Contracts, and Schedule of Open Futures Contracts for more details on the Fund's individual holdings.
- (2) The value of option, swap, forward currency contracts and futures contracts are expressed as notional and not market value.

Ratio of operating expenses to average net assets excluding dividends, interest, and borrowing expense on securities sold short ⁽⁴⁾					
to average net assets	1.50%	1.50%	1.50%	1.50%	1.50%
Ratio of net investment income (loss) to average net assets ⁽⁴⁾					
to average net assets	(0.49)%	(0.77)%	(0.24)%	0.78%	0.11%
Portfolio turnover rate ⁽⁵⁾	734%	576%	738%	585%	700%

(1) For a Class K share outstanding for the entire year.

(2) Calculated based on average shares outstanding during the year.

(3) Amount per share is less than \$0.005.

(4) These ratios exclude the impact of expenses of the underlying exchange-traded funds as represented in the Schedule of Investments. Recognition of net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying exchange-traded funds in which the Fund invests.

(5) The portfolio turnover disclosed is for the Fund as a whole. The numerator for the portfolio turnover rate includes the lesser of purchases or sales (excluding short-term investments, short-term options, swap contracts, futures contracts and short positions). The denominator includes the average fair value of long positions throughout the years ended.

The accompanying notes are an integral part of these financial statements.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS OCTOBER 31, 2022

1. ORGANIZATION

Series Portfolios Trust (the “Trust”) was organized as a Delaware statutory trust under a Declaration of Trust dated July 27, 2015. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Weiss Alternative Multi-Strategy Fund (the “Fund”) is a diversified series with its own investment objectives and policies within the Trust. The Fund’s investment adviser, Weiss Multi-Strategy Advisers LLC (the “Adviser”), is responsible for investment advisory services, day-to-day management of the Fund’s assets, as well as compliance, sales, marketing and operation services to the Fund. The primary investment objective of the Fund is to provide returns with moderate volatility and reduced correlation to the bond and equity markets. The Fund commenced operations on December 1, 2015. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (the “Codification”) Topic 946 Financial Services – Investment Companies. The Fund does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, nor does it share the same investment adviser with any other series of the Trust.

The Fund offers four share classes, Class A, Class I, Class K and Investor Class. Effective March 31, 2017, the Fund ceased offering Class I. As of October 31, 2022, Class A and Class I shares are not available for purchase. Class K and Investor Class shares have no front-end sales load, no deferred sales charge, and a 1.00% redemption fee prior to November 22, 2019. Investor Class shares are subject to a 0.25% distribution fee (12b-1) and a shareholder servicing fee of up to 0.10% of average daily net assets. Class K shares are not subject to a distribution fee or a shareholder servicing fee.

The Fund may issue an unlimited number of shares of beneficial interest, with no par value. All shares of the Fund have equal rights and privileges except with respect to distribution fees and voting rights on matters affecting a single share class.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

A. *Investment Valuation* – The following is a summary of the Fund’s pricing procedures. It is intended to be a general discussion and may not necessarily reflect all the pricing procedures followed by the Fund. Equity securities, including common stocks, preferred stocks, and real estate investment trusts (“REITS”) that are traded on a national securities exchange, except those listed on the Nasdaq Global Market®, Nasdaq Global Select Market® and the Nasdaq Capital Market® exchanges (collectively “Nasdaq”), are valued at the last reported sale price on that exchange on which the security is principally traded. Securities traded on Nasdaq will be valued at the Nasdaq Official Closing Price (“NOCP”). If, on a particular day, an exchange traded or Nasdaq security does not trade, then the mean between the most recent quoted bid and asked prices will be used. All equity securities that are not traded on a listed exchange are valued at the last sale price in the over-the-counter (“OTC”) market. If a non-exchanged traded equity security does not trade on a particular day, then the mean between the last quoted closing bid and asked price will be used. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

Fixed income securities, including short-term debt instruments having a maturity less than 60 days, are valued at the evaluated mean price supplied by an approved independent third-party pricing service (“Pricing Service”). These securities are categorized in Level 2 of the fair value hierarchy.

In the case of foreign securities, the occurrence of events after the close of foreign markets, but prior to the time the Fund’s NAV is calculated will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. The Fund will value foreign securities at fair value, taking into account such events in calculating the NAV. In such cases, use of fair valuation can reduce an investor’s ability to seek profit by estimating the Fund’s NAV in advance of the time the NAV is calculated. These securities are categorized in Level 2 of the fair value hierarchy.

Exchange traded funds and closed-end funds are valued at the last reported sale price on the exchange on which the security is principally traded. If, on a particular day, an exchange-traded fund does not trade, then the mean between the most recent quoted bid and asked prices will be used. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Investments in registered open-end investment companies (including money market funds), other than exchange-traded funds, are typically valued at their reported NAV per share. To the extent these securities are valued at their NAV per share, they are categorized in Level 1 of the fair value hierarchy.

Forward currency contracts maturing in two or fewer days are valued at the spot rate. Forward currency contracts maturing in three days or more are valued at the midpoint prices calculated by U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services” or the “Administrator”) using an “interpolation” methodology that incorporates foreign-exchange prices obtained from an approved pricing service for standard forward-settlement periods, such as one month, three months, six months and one year. These securities are categorized in Level 2 of the fair value hierarchy.

Exchange traded options and Flexible Exchange[®] options (“FLEX options”) are valued at the composite mean price, which calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is principally traded. If the composite mean price is not available, the last sale or settlement price maybe be used. For non-exchange traded options, models such as Black-Scholes can be used to value the options. On the last trading day prior to expiration, expiring options may be priced at intrinsic value. These securities are categorized in Level 2 of the fair value hierarchy.

Futures contracts are valued at the settlement price on the exchange on which they are principally traded. The settlement price is the average of the prices at which a futures contract trades immediately before the close of trading for the day. Equity swap contract prices are determined by using the same methods used to price the underlying security. These securities are categorized in Level 1 or Level 2 of the fair value hierarchy.

The Board of Trustees (the “Board”) has adopted a pricing and valuation policy for use by the Fund and its Valuation Designee (as defined below) in calculating the Fund’s NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Fund has designated the Adviser as its “Valuation Designee” to perform all of the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of the portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion in changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following table is a summary of the inputs used to value the Fund’s securities by level within the fair value hierarchy as of October 31, 2022:

	<u>\$ (81,590,600)</u>	<u>\$(19,958,465)</u>	<u>\$ —</u>	<u>\$(101,549,065)</u>

⁽¹⁾ Swap contracts, future contracts and forward currency exchange contracts are valued at the net unrealized appreciation (depreciation) on the instrument as presented on the Schedules of Open Swap, Open Futures and Open Forward Currency contracts.

⁽²⁾ Amount less than \$0.50.

For the period ended October 31, 2022, there were no transfers into or out of Level 3 securities.

B. Securities Sold Short – The Fund sells securities or currencies short for economic hedging purposes or any other investment purpose. For financial statement purposes, an amount equal to the settlement amount is initially included in the Statement of Assets and Liabilities as an asset and an equivalent liability. The amount of the liability is subsequently priced to reflect the current value of the short position. Subsequent fluctuations in the market prices of securities or currencies sold, but not yet purchased, may require purchasing the securities or currencies at prices which may differ from the fair value reflected on the Statement of Assets and Liabilities. Short sale transactions result in off balance sheet risk because the ultimate obligation may exceed the related amounts shown in the Statement of Assets and Liabilities. The Fund will incur losses if the price of the security increases between the date of the short sale and the date on which the Fund purchases the securities to replace the borrowed securities. The Fund's losses on short sales are potentially unlimited because there is no upward limit on the price a borrowed security could attain.

The Fund is liable for any dividends and interest payable on securities while those securities are sold short. Until the security is replaced, the Fund is required to pay to the lender any income earned, which is recorded as an expense by the Fund. The Fund's policy is to segregate liquid assets in an amount equal to the fair value of securities sold short (not including proceeds received), which is reflected in the Schedule of Investments. These assets are required to be adjusted daily to reflect changes in the value of the securities or currencies sold short.

C. Transactions with Brokers – The Fund's deposits at brokers for securities sold short are with one securities dealer. The Fund does not require the brokers to maintain collateral in support of the receivables from the brokers for proceeds on securities sold short. The Fund is required by the brokers to maintain collateral at the brokers or in a segregated account at the Fund's custodian for securities sold short. The Fund may maintain cash deposits at brokers beyond the receivables for short sales.

The Fund's written options contracts', equity swap contracts', forward currency contracts' and futures contracts cash deposits are monitored daily by the Adviser and counterparty. Cash deposits beyond the short sale proceeds by the Fund are presented as deposits at brokers on the Statement of Assets and Liabilities. The Fund's securities sold short and written option contracts are traded through the same account at Morgan Stanley and the deposits associated with these investments are not able to be determined by security or contract type. These transactions may involve market risk in excess of the amounts receivable or payable reflected on the Statement of Assets and Liabilities.

D. Written Option Contracts – The Fund is subject to equity price risk in the normal course of pursuing its investment objectives. The Fund writes (sells) put or call options for hedging purposes, volatility management purposes, or otherwise to gain, or reduce, long or short exposure to one or more asset classes or issuers. When a

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

Fund writes (sells) an option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as an asset and an equivalent liability. The amount of the liability is subsequently priced daily to reflect the current value of the option written. Refer to Note 2 A. for a pricing description. By writing an option, a Fund may become obligated during the term of the option to deliver or purchase the securities underlying the option at the exercise price if the option is exercised. These contracts may involve market risk in excess of the amounts receivable or payable reflected on the Statement of Assets and Liabilities. Refer to Note 2 R. for further derivative disclosures, and Note 2 P. for further counterparty risk disclosure.

When an option expires on its stipulated expiration date or the Fund enters into a closing purchase transaction, the Fund realizes gains or losses if the cost of the closing purchase transaction differs from the premium received when the option was sold without regard to any unrealized appreciation or depreciation on the underlying security, and the liability related to such option is eliminated. When a written call option is exercised, the premium originally received decreases the cost basis of the security and the Fund realizes gains or losses from the sale of the underlying security. When a written put option is exercised, the cost of the security acquired is decreased by the premium received for the put.

E. Purchased Option Contracts – The Fund is subject to equity price risk in the normal course of pursuing its investment objectives. The Fund purchases put or call options for hedging purposes, volatility management purposes, or otherwise to gain, or reduce, long or short exposure to one or more asset classes or issuers. When the Fund purchases an option contract, an amount equal to the premiums paid is included in the Statement of Assets and Liabilities Investments at value as an investment, and is subsequently priced daily to reflect the value of the purchased option contract. Refer to Note 2 A. for a pricing description. Refer to Note 2 R. for further derivative disclosures, and Note 2 P. for further counterparty risk disclosure.

F. Flex Options – The Fund principally uses options to hedge exposure to underlying positions given projected increases in volatility or to crystallize price gains or losses in individual securities. FLEX Options are customized option contracts available through the CBOE that are guaranteed for settlement by The Options Clearing Corporation (“OCC” or the “Clearinghouse”). FLEX Options provide investors with the ability to customize exercise prices and expiration dates, while achieving price discovery in competitive, transparent auctions markets and avoiding the counterparty exposure of over-the-counter (“OTC”) options positions. The Fund bears the risk that the Clearinghouse will be unable or unwilling to perform its obligations under the FLEX Options contracts.

G. Forward Currency Contracts – The Fund is subject to foreign currency rate risk in the normal course of pursuing its investment objectives. Forward foreign currency exchange contracts are entered into to gain or reduce exposure to foreign currencies (foreign currency exchange risk). A forward foreign currency exchange contract is an agreement between two parties to buy or sell a currency at a set exchange rate on a specified date. These contracts help to manage the overall exposure to the currencies in which some of the investments held by the Fund are denominated and in some cases, may be used to obtain exposure to a particular market. The Fund may enter into forward contracts for foreign currency hedging purposes, volatility management purposes or otherwise to gain, or reduce, long or short exposure to one or more asset classes or issuers. The Fund may enter into forward currency exchange contracts obligating the Fund to deliver and receive a currency at a specified future date. Forward contracts are valued daily, and unrealized appreciation or depreciation is recorded daily as the difference between the contract exchange rate and the closing forward rate applied to the face amount of the contract. Refer to Note 2 A. for a pricing description. A realized gain or loss is recorded at the time the forward contract expires. Credit risk may arise as a result of the failure of the counterparty to comply with the terms of the contract. Refer to Note 2 P. for further counterparty risk disclosure.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

The use of forward currency exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's investment securities. The use of forward currency exchange contracts involves the risk that anticipated currency movements will not be accurately predicted. A forward currency exchange contract would limit the risk of loss due to a decline in the value of a particular currency; however, it would also limit any potential gain that might result should the value of the currency increase instead of decrease. These contracts may involve market risk in excess of the amounts receivable or payable reflected on the Statement of Assets and Liabilities. Refer to Note 2 R. for further derivative disclosures.

H. *Futures Contracts* – The Fund may enter into futures contracts traded on domestic and international exchanges, including stock index and fixed income futures contracts. The Fund principally uses futures for attractive liquidity offered in portfolio construction and management than available using equity and fixed income exchange traded funds. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract (with the exception of futures contracts traded on the London Metal Exchange (“LME”). Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains and losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The variation margin on LME futures contracts do not settle daily, but rather settle at their respective maturity dates. The risks inherent in the use of futures contracts include adverse changes in the value of such instruments. Refer to Note 2 A. for a pricing description. Refer to Note 2 R. for further derivative disclosures, and Note 2 P. for further counterparty risk disclosure.

I. *Equity Swap Contracts* – The Fund is subject to equity price risk and interest rate risk in the normal course of pursuing its investment objectives. During the year ended October 31, 2022, the Fund entered into both long and short equity swap contracts. Swap contracts are entered into to manage exposure to issuers, markets and securities. A long equity swap contract entitles the Fund to receive from the counterparty any appreciation and dividends paid on an individual security, while obligating the Fund to pay the counterparty any depreciation on the security as well as interest on the notional amount of the contract generally at a rate equal to the Euro OverNight Index Average (“EONIA”) or the Sterling OverNight Index Average (“SONIA”), Bank of Japan Estimate Unsecured Overnight Call Rate (“TONAR”) or the Federal Funds Rate (“FED”) (plus an additional rate. Please see the Schedule of Open Swap for details on a contract by contract basis). A short equity swap contract obligates the Fund to pay the counterparty any appreciation and dividends paid on an individual security, while entitling the Fund to receive from the counterparty any depreciation on the security, and to pay to or receive from the counterparty interest on the notional value of the contract generally at a rate equal to EONIA, SONIA, TONAR or FED (plus an additional rate. Please see the Schedule of Open Swap Contracts for details on a contract by contract basis).

Fluctuations in the value of an open contract are recorded daily as net unrealized appreciation or depreciation. The Fund will realize gains or losses upon termination or reset of the contract. Either party, under certain conditions, may terminate the contract prior to the contract's expiration date. Refer to Note 2 A. for a pricing description. Credit risk may arise as a result of the failure of the counterparty to comply with the terms of the contract. Refer to Note 2 P. for further counterparty risk disclosure. Additionally, risk may arise from unanticipated movements in interest rates or in the value of the underlying securities. These contracts may involve market risk in excess of the amounts receivable or payable reflected on the Statement of Assets and Liabilities. Refer to Note 2 R. for further derivative disclosures.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

J. *Foreign Securities and Currency Translation* – Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not isolate the portion of the results of operations from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal year-end, resulting from changes in exchange rates.

Investments in foreign securities entail certain risks. There may be a possibility of nationalization or expropriation of assets, confiscatory taxation, political or financial instability, and diplomatic developments that could affect the value of the Fund's investments in certain foreign countries. Since foreign securities normally are denominated and traded in foreign currencies, the value of the Fund's assets may be affected favorably or unfavorably by currency exchange rates, currency exchange control regulations, foreign withholding taxes, and restrictions or prohibitions on the repatriation of foreign currencies. There may be less information publicly available about a foreign issuer than about a U.S. issuer, and foreign issuers are not generally subject to accounting, auditing, and financial reporting standards and practices comparable to those in the United States. The securities of some foreign issuers are less liquid and at times more volatile than securities of comparable U.S. issuers.

K. *Cash and Cash Equivalents* – The Fund considers highly liquid short-term fixed income investments purchased with an original maturity of less than three months to be cash equivalents. Cash equivalents are included in short-term investments on the Schedule of Investments as well as in investments on the Statement of Assets and Liabilities.

L. *Guarantees and Indemnifications* – In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred.

M. *Security Transactions, Income and Expenses* – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income and expense is recorded on the ex-dividend date and interest income and expense is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities. Interest income is accounted for on the accrual basis and includes amortization of premiums and accretion of discounts on the effective interest method.

N. *Allocation of Income, Expenses and Gains/Losses* – Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Fund are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of the Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. 12b-1 fees are expensed at 0.25% of average daily net assets of Investor Class shares (See Note 5). Shareholder servicing fees are expensed at an annual rate of up to 0.10% of average daily net assets of Investor Class shares (See Note 5). Trust Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

O. *Share Valuation* – The NAV per share of the Fund is calculated by dividing the sum of the value of the securities held by the Fund, plus cash and other assets, minus all liabilities (including estimated accrued expenses) by the total number of shares outstanding for the Fund, rounded to the nearest cent. The Fund’s shares will not be priced on days which the New York Stock Exchange (“NYSE”) is closed for trading.

P. *Counterparty Risk* – The Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor its obligations. The Adviser considers the credit worthiness of each counterparty to a contract in evaluating potential credit risk. The counterparty risk for forward currency exchange contracts to the Fund includes the amount of any net unrealized appreciation on the contract. The counterparty risk for equity swaps contracts to the Fund includes the risk of loss of the full amount of any net unrealized appreciation on the contract, along with dividends receivable on long equity contracts and interest receivable on short equity contracts. Written and purchased options and futures contracts sold on an exchange do not expose the Fund to counterparty risk; the exchange’s clearinghouse guarantees the options and futures against counterparty nonperformance. Over-the-counter options counterparty risk includes the risk of loss of the full amount of any net unrealized appreciation.

Q. *Use of Estimates* – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

R. *Derivatives* – The Fund may utilize derivative instruments such as options, swaps, futures, forward currency exchange contracts and other instruments with similar characteristics to the extent that they are consistent with the Fund’s respective investment objectives and limitations. The use of these instruments may involve additional investment risks, including the possibility of illiquid markets or imperfect correlation between the value of the instruments and the underlying securities. Derivatives also may create leverage which will amplify the effect of their performance on the Fund and may produce significant losses. Refer to Note 7 for further derivative disclosure.

The Fund employs a risk optimized allocation strategy by investing in (1) an actively managed, diversified, market neutral multi-strategy portfolio that includes equity securities, debt securities, and/or derivatives (the “Core Market Neutral Component”), (2) a long-only “growth” overlay of equity securities (the “Growth Component”), and (3) a long-only “defensive” overlay of debt securities (the “Defensive Component”). To implement its strategy, the Fund may also use derivatives, such as swaps and futures on indexes, in the Growth and Defensive Components. The Fund’s Growth and Defensive Components consist only of securities purchased with the objective of seeking an increase in the underlying prices of such securities. The Fund’s Growth Component will, under normal circumstances, consist of domestically traded large- and midcap equity securities that aim to approximately track price performance in the overall stock market. The portion of the Fund’s overall portfolio comprised of debt securities, which are held in the Defensive and Core Market Neutral Components, will, under normal market conditions, have a weighted average maturity that exceeds 9 years and will consist primarily of investment-grade debt securities with an average credit rating in excess of “A” by Standard & Poor’s, or an equivalent quality rating from another Nationally Recognized Statistical Rating Organization. The Fund may also invest in below-investment grade debt securities (also referred to as high yield debt securities or “junk” bonds).

The Fund’s Core Market Neutral Component consists of a combination of “long” securities purchased that seek to benefit from an increase in the underlying prices of such securities and “short” securities sold that seek to benefit from a decrease in the underlying prices of such securities. The Fund’s Core Market Neutral Component may be characterized by sector focus, geographic definition, quantitative method, event orientation or some other

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

dominant characteristic. The strategies employed and the allocation among them will vary over time. The common attribute of these strategies is a long/short investment approach whereby various securities or instruments are held long and others are sold short. The Adviser, therefore, applies moderate leverage (i.e., borrowed capital to increase investment exposure) to the Core Market Neutral Component in an effort to enhance absolute returns. In addition, in order to take advantage of certain opportunities in the securities markets, the Fund may engage in active and frequent trading with respect to the Core Market Neutral Component.

The Adviser seeks to allocate assets to each of the three components based on the Adviser's assessment of each component's expected contribution to the Fund's overall portfolio risk. The Adviser utilizes the historical price return and volatility (among other proprietary measures) of each component in order to estimate a component's risk contribution. Although there is no requirement to invest a specific percentage of the Fund's assets in a particular component, it is generally expected that a larger percentage of the Fund's assets will be allocated to low risk asset classes (i.e., those that comprise the bond or Defensive Component) than to higher risk asset classes (i.e., those that comprise the equity or Growth Component). Given that the Adviser seeks to allocate assets to each individual component according to its risk contribution (as measured by its historical price return and volatility), the Fund's allocation of assets to the Core Market Neutral, Growth and Defensive Components can fluctuate widely.

The equity securities that comprise the Fund's Growth Component may at any time include positions in U.S. common, preferred or convertible securities of large- or mid- capitalization issuers; securities of other investment companies, including exchange-traded funds ("ETFs"); depositary receipts, including American Depositary Receipts ("ADRs"), and derivatives, such as swaps and futures on indexes. The equity securities that comprise the Fund's Core Market Neutral Component may at any time include positions in U.S. or non-U.S. common, preferred or convertible securities of any market capitalization throughout the world, including emerging markets countries; securities of other investment companies, including ETFs; and depositary receipts, including ADRs. The debt securities that comprise the Fund's Defensive Component and Core Market Neutral Component may include corporate debt securities, bonds (including inflation-indexed bonds), notes or other debentures, U.S. Government and foreign government securities, high yield or junk bonds, ETFs, and derivatives, such as swaps and futures on indexes. In addition, the Core Market Neutral Component may invest in derivative instruments, including swaps, interest rate swaps, options or index options (e.g., calls and puts may be purchased or written), futures contracts, and forward contracts. The Fund's derivative instruments are used for several purposes, including to create investment leverage; as a substitute for securities, interest rates, currencies and commodities; and/or to hedge against market movements.

The Fund has adopted authoritative standards regarding disclosure about derivatives and hedging activities and how they affect the Fund's Statement of Assets and Liabilities and Statement of Operations. For the year ended October 31, 2022, the Fund's average derivative volume is described below:

	<u>Monthly Average Quantity</u>	<u>Monthly Average Notional Value</u>
Purchased Option Contracts	1,548	\$ 7,039,521
Written Option Contracts	1,945	8,356,351
Long Total Return Swap Contracts	932,270	49,372,945

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

3. RELATED PARTY TRANSACTIONS

The Trust has an agreement with the Adviser to furnish investment advisory services to the Fund. Pursuant to an Investment Advisory Agreement between the Trust and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.50% of the Fund’s average daily net assets.

The Fund’s Adviser has contractually agreed in an Operating Expense Limitation Agreement to reduce its management fees and/or absorb expenses of the Fund to ensure that total annual operating expenses after fee waiver and/or expense reimbursement (excluding 12b-1 fees – Class A and Investor Class (see Note 5), shareholder servicing fees – Class A, Class I and Investor Class (see Note 5), any acquired fund fees and expenses, front-end or contingent deferred loads, redemption fees, swap fees and expenses, dividends and interest on short positions, taxes, leverage interest, brokerage fees (including commissions, mark-ups and mark-downs), annual account fees for margin accounts, expenses incurred in connection with any merger or reorganization and extraordinary expenses such as litigation) do not exceed 1.50% of the Fund’s average daily net assets. As of October 31, 2022, Class A shares and Class I shares are not available. The Adviser may request recoupment of previously waived fees and reimbursed Fund expenses from the Fund for three years from the date they were waived or reimbursed, provide that, after payment of the recoupment, the Total Annual Fund Operating Expenses do not exceed the lesser of the Expense Cap: (i) in effect at the time of the waiver or reimbursement; or (ii) in effect at the time of recoupment. The Operating Expense Limitation Agreement is intended to be continual in nature and cannot be terminated within one year after the effective date of the Fund’s prospectus and subject thereafter to termination at any time upon 60 days written notice and approval by the Board or the Advisor, with consent of the Board. Waived fees and reimbursed expenses subject to potential recovery during the fiscal year of expiration are as follows:

<u>Expiration</u>	<u>Amount</u>
November 2022 to October 2023	\$ 969,449
November 2023 to October 2024	1,165,912
November 2024 to October 2025	814,144

Fund Services acts as the Fund’s Administrator, transfer agent, and fund accountant. U.S. Bank N.A. (the “Custodian”) serves as the custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund’s custodian; coordinates the payment of the Fund’s expenses and reviews the Fund’s expense accruals. The officers of the Trust, including the Chief Compliance Officer, are employees of the Administrator. A trustee of the Trust is an officer of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by the Fund for administration and accounting, transfer agency, custody and compliance services for the year ended October 31, 2022, are disclosed in the Statement of Operations.

Quasar Distributors, LLC, is the Fund’s distributor (the “Distributor”). The Distributor is not affiliated with the Adviser, Fund Services, or its affiliated companies.

4. TAX FOOTNOTE

Federal Income Taxes – The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the year ended October 31, 2022, the Fund did not have any tax positions that did not meet the “more-likely-than-not”

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

threshold of being sustained by the applicable tax authority and did not have liabilities for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. The Fund is not subject to examination by taxing authorities for the tax years prior to October 31, 2019.

As of October 31, 2022, the components of accumulated earnings (losses) on a tax basis were as follows:

Tax cost of investments*	<u>\$ 132,866,706</u>
Gross unrealized appreciation	\$ 7,674,430
Gross unrealized depreciation	<u>(30,407,552)</u>
Net unrealized depreciation	(22,733,122)
Undistributed ordinary income	—
Undistributed long-term capital gain	—
Other accumulated losses	<u>(32,843,880)</u>
Total accumulated losses	<u>\$ (55,577,002)</u>

* Represents cost for federal income tax purposes and differs from the cost for financial reporting purposes due to partnership adjustments, wash sales, derivatives and constructive sales.

As of October 31, 2022, the Fund had short-term capital loss carryovers of \$5,237,928 and long-term carryovers of \$25,774,297 which will be permitted to be carried over for an unlimited period of time. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain ordinary losses which occur during the portion of the Fund's taxable period subsequent to December 31, respectively. For the taxable year ended October 31, 2022, the Fund does not plan to defer any qualified late year losses.

Distributions to Shareholders – The Fund distributes substantially all net investment income, if any, and net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For the year ended October 31, 2022 the following table shows the reclassifications made:

<u>Total</u> <u>Distributable</u> <u>Earnings</u>	<u>Paid-in Capital</u>
\$9,473,109	\$(9,473,109)

Adjustments to the amounts shown in the table were due to net operating losses and partnership adjustments.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

The tax character of distributions paid for the year ended October 31, 2022 and the year ended October 31, 2021, respectively, were as follows:

	<u>Ordinary Income*</u>	<u>Long-Term Capital Gain</u>	<u>Total</u>
2022	\$12,810,319	\$2,906,545	\$15,716,864
2021	7,432,138	—	7,432,138

* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions.

5. DISTRIBUTION & SHAREHOLDER SERVICING FEES

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 (the “Plan”) for Class A and the Investor Class. The Plan permits the Fund to pay for distribution and related expenses at an annual rate of 0.25% average daily net assets of Class A and the Investor Class. Amounts paid under the Plan are paid to the Distributor to compensate it for costs of the services it provides to Class A and Investor Class shares of the Fund and the expenses it bears in the distribution of the Fund’s Class A and Investor Class shares, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund’s Investor class shares to prospective investors; and preparation, printing, payments to intermediaries and distribution of sales literature and advertising materials.

Under the Plan, the Trustees will be furnished quarterly with information detailing the amount of expenses paid under the Plan and the purposes for which payments were made. The Plan may be terminated at any time by vote of a majority of the Trustees of the Trust who are not interested persons. Continuation of the Plan is considered by such Trustees no less frequently than annually. As of October 31, 2022, Class A shares were not available. For the year ended October 31, 2022, the Investor Class incurred expenses of \$18,714 pursuant to the Plan.

In addition, pursuant to a Shareholder Service Plan (the “Shareholder Servicing Plan”) adopted by the Trust on behalf of the Fund, the Advisor is authorized to engage financial institutions, securities dealers and other industry professionals (“Shareholder Servicing Agent”) to provide personal shareholder services relating to the servicing and maintenance of shareholder accounts not otherwise provided to the Fund. Payments made pursuant to the Shareholder Servicing Plan shall not exceed 0.10% of the average daily net asset value of Class A, Class I and the Investor Class of the Fund’s shares. For the year ended October 31, 2022, the Investor Class incurred expenses of \$7,486 to the plan. As of October 31, 2022, Class A and Class I shares were not available for purchase.

Payments made under the Shareholder Servicing Plan shall be used to compensate Shareholder Servicing Agents for providing general shareholder liaison services, including, but not limited to: (i) answering inquiries from shareholders regarding account status and history, the manner in which purchases and redemptions of the Fund shares may be effected, and other matters pertaining to the Fund; (ii) assisting shareholders in designating and changing dividend options, account designations and addresses; (iii) arranging for wiring of funds and transmitting and receiving funds in connection with orders to purchase or redeem Fund shares; (iv) verifying and guaranteeing shareholder signatures in connection with orders to purchase or redeem Fund shares; (v) providing such other similar services related to the maintenance of shareholder accounts; and (vi) providing necessary personnel and facilities to conduct the activities described above.

Distributions and shareholder servicing fees are not subject to the Operating Expense Limitation Agreement to reduce management fees and/or absorb Fund expenses by the Adviser. Distribution and shareholder servicing fees will increase the expenses beyond the Operating Expense Limitation Agreement rate of 1.50% for Class A, Class I and Investor Class.

6. INVESTMENT TRANSACTIONS

The aggregate purchases and sales, excluding short-term investments, by the Fund for the year ended October 31, 2022, were as follows:

	<u>Purchases</u>	<u>Sales</u>	
U.S. Government	\$ —	\$ —	
Other	1,256,667,711	1,222,145,625	

7. OFFSETTING ASSETS AND LIABILITIES

The Fund is subject to various Master Netting Arrangements, which govern the terms of certain transactions with select counterparties. The Master Netting Arrangements allow the Fund to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a single agreement with a counterparty. The Master Netting Arrangements also specify collateral posting arrangements at pre-arranged exposure levels. Under the Master Netting Arrangements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Netting Arrangement with a counterparty in a given account exceeds a specified threshold depending on the counterparty and the type of Master Netting Arrangement. Morgan Stanley is the prime broker for exchange traded derivatives and the counterparty for swaps and forward currency contracts.

* In some instances, the actual collateral pledged/received may be more than amount shown.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

NOTES TO THE FINANCIAL STATEMENTS – CONTINUED OCTOBER 31, 2022

8. BENEFICIAL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of October 31, 2022, National Financial Services and Charles Schwab, for the benefit of their customers, owned 37.45% and 29.81% of the outstanding shares of the Fund.

9. RECENT MARKET EVENTS RISK

U.S. and international markets have experienced significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including the impact of COVID-19 as a global pandemic, which has resulted in a public health crisis, disruptions to business operations and supply chains, stress on the global healthcare system, growth concerns in the U.S. and overseas, staffing shortages and the inability to meet consumer demand, and widespread concern and uncertainty. The global recovery from COVID-19 is proceeding at slower than expected rates due to the emergence of variant strains and may last for an extended period of time. Continuing uncertainties regarding interest rates, rising inflation, political events, rising government debt in the U.S. and trade tensions also contribute to market volatility. As a result of continuing political tensions and armed conflicts, including the war between Ukraine and Russia, the U.S. and the European Union imposed sanctions on certain Russian individuals and companies, including certain financial institutions, and have limited certain exports and imports to and from Russia. The war has contributed to recent market volatility and may continue to do so.

10. SUBSEQUENT EVENTS

On December 20, 2022, the Fund's Class K shares declared an income distribution of \$0.00108259 payable on December 21, 2022, to shareholders of record on December 20, 2022.

Management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued and there are no additional subsequent events to report that would have a material impact on the Fund's financial statements and the notes to the financial statements.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Weiss Alternative Multi-Strategy Fund and
Board of Trustees of Series Portfolios Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedules of investments, securities sold short, written options, swap contracts, open forward currency contracts, and open futures contracts, of Weiss Alternative Multi-Strategy Fund (the “Fund”), a series of Series Portfolios Trust, as of October 31, 2022, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of October 31, 2022, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2022, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2015.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

BOARD CONSIDERATION OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) OCTOBER 31, 2022

Under Section 15 of the Investment Company Act of 1940 (the “1940 Act”), the Board of Trustees (the “Board” or the “Trustees”) of Series Portfolios Trust (the “Trust”), including a majority of the Trustees who have no direct or indirect interest in the investment advisory agreement and who are not “interested persons” of the Trust, as defined in the 1940 Act (the “Independent Trustees”), must determine annually whether to approve the continuation of the Trust’s investment advisory agreements.

At a meeting held on July 28, 2022 (the “Meeting”), the Board, including the Independent Trustees, considered and approved the continuance of the advisory agreement (the “Advisory Agreement”) between the Trust, on behalf of the Weiss Alternative Multi-Strategy Fund (the “Fund”), and Weiss Multi-Strategy Advisors, LLC (“Weiss”), for an additional one-year term. At the Meeting, the Board considered the factors and reached the conclusions described below in reviewing and approving Weiss to continue serving as the Fund’s investment adviser for another year.

In connection with the annual review process and in advance of the Meeting, Weiss provided information to the Board in response to requests submitted to it by U.S. Bank Global Fund Services (“Fund Services”), the Fund’s administrator, on behalf of the Board, to facilitate the Board’s evaluation of the terms of the Advisory Agreement. The information furnished by Weiss included materials describing, among other matters: (i) the nature, extent, and quality of the services provided by Weiss, including Weiss’ portfolio managers and other personnel, and the investment practices and techniques used by Weiss in managing the Fund; (ii) the historical investment performance of the Fund; (iii) the management fees payable by the Fund to Weiss and the Fund’s overall fees and operating expenses compared with those of a peer group of mutual funds; (iv) Weiss’ profitability and economies of scale; and (v) other ancillary or “fall-out” benefits Weiss and/or its affiliates, if any, may receive based on Weiss’s relationship with the Fund. In addition to the Meeting, the Board met on June 28, 2022 with Fund Services and counsel to discuss the materials that had been furnished by Weiss in response to the information requests. The Board also considered information furnished to the Board at its meetings periodically over the course of the year. At these meetings, representatives of Weiss furnished quarterly reports and other information to the Board regarding the performance of the Fund, the services provided to the Fund by Weiss, and compliance and operational matters related to the Fund and Weiss.

In considering and approving the Advisory Agreement for another year, the Board considered the information it deemed relevant, including but not limited to the information discussed below. The Board considered not only the specific information presented in connection with the Meeting, but also the knowledge gained over time through previous interactions with Weiss. The Board did not identify any particular information or consideration that was all-important or controlling, and each individual Trustee may have attributed different weights to various factors. The Independent Trustees were assisted in their evaluation of the Advisory Agreement by independent legal counsel, from whom they received separate legal advice and with whom they met separately from management and the Interested Trustee on several occasions. The following summarizes a number of relevant, but not necessarily all, factors considered by the Board in approving the continuation of the Advisory Agreement.

NATURE, EXTENT AND QUALITY OF SERVICES TO BE PROVIDED TO THE FUND

The Board considered the nature, extent and quality of services provided to the Fund by Weiss under the Advisory Agreement. This information included, among other things, the qualifications, background, tenure and responsibilities of each of the portfolio managers who are primarily responsible for the day-to-day portfolio management of the Fund. It also included information about Weiss’ investment process and investment strategy for the Fund, the approach to security selection and the overall positioning of the Fund’s portfolio. The Board noted that Weiss had been managing the Fund’s portfolio since its inception.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

BOARD CONSIDERATION OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) – CONTINUED OCTOBER 31, 2022

The Board evaluated the ability of Weiss, based on attributes such as its financial condition, resources and reputation, to attract and retain qualified investment professionals, including research, advisory and supervisory personnel. The Board further considered Weiss' compliance program and its compliance record since the inception of the Fund.

Based on the above factors, as well as those discussed below, the Board concluded, within the context of its full deliberations, that Weiss is capable of continuing to provide services of the nature, extent and quality contemplated by the terms of the Advisory Agreement.

INVESTMENT PERFORMANCE

The Board considered the Fund's investment performance information as of June 30, 2022 as compared to its benchmark index, the Bloomberg Barclays U.S. Corporate Bond Index, and noted that the Fund's Class K and Investor Class shares outperformed the index for the three-year, five-year and since inception periods ended June 30, 2022, but underperformed the index for the year-to-date and one-year periods ended June 30, 2022. Additionally, the Board considered the Fund's investment performance as compared to a performance universe of peer funds compiled by Broadridge Financial Solutions ("Broadridge"), an independent provider of investment company data, based on Morningstar fund classifications (the "Performance Universe"). The Trustees considered that the performance data provided by Broadridge included, among other things, performance comparisons for the one-year, two-year, three-year, four-year, and five-year periods ended March 31, 2022. The Trustees noted that the Fund's Class K shares outperformed the Performance Universe average and median for the three-year, four-year, and five-year periods, outperformed the Performance Universe average but matched the Performance Universe median for the two-year period, and underperformed the Performance Universe average and median for the one-year period. The Board also considered that, in connection with its meetings held during the course of the prior year, the Board received and considered reports regarding the Fund's performance over various time periods.

After considering the investment performance information described above, the Trustees concluded that the performance results achieved by Weiss for the Fund were satisfactory given market conditions. Although past performance is not a guarantee or indication of future results, the Trustees further concluded that they continue to have confidence in Weiss's overall capabilities to manage the Fund.

FEES AND EXPENSES

The Board reviewed and considered the contractual investment management fee rate payable by the Fund to Weiss for investment management services (the "Management Fee Rate"). Among other information reviewed by the Board was a comparison of the Management Fee Rate of the Fund with those of other funds in an expense group (the "Expense Group"), as determined by Broadridge, based on Morningstar fund classifications. The Board noted that the Management Fee Rate was higher than the Expense Group average and median.

The Board received and evaluated information about the nature and extent of responsibilities and duties, as well as the entrepreneurial and other risks, assumed by Weiss. The Board also noted that Weiss reported that it does not manage any accounts using the same or similar strategy as that applied to the Fund.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board determined that the Management Fee Rate was reasonable in light of the services expected to be covered, and those currently being covered, by the Advisory Agreement.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

BOARD CONSIDERATION OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) – CONTINUED OCTOBER 31, 2022

The Board received and considered information regarding the Fund’s net operating expense ratios and its various components, including management fees, administrative fees, custodian and other non-management fees, Rule 12b-1 fees and non-Rule 12b-1 service fees and fee waiver and expense reimbursement arrangements. The Board recognized that Weiss had entered into an expense limitation agreement (the “Expense Limitation Agreement”) to limit the total annual fund operating expenses of each class of the Fund (excluding Rule 12b-1 fees, shareholder servicing fees, redemption fees, swap fees and expenses, dividends and interest on short positions, taxes, leverage interest, brokerage fees (including commissions, mark-ups and mark-downs), annual account fees for margin accounts, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation). The Board considered the net operating expense ratios in comparison to the average and median ratios of the Expense Group. The Board noted that the Fund’s net expense ratio for Class K was higher than both the average and median of the Expense Group. The Board acknowledged that Weiss absorbs all expenses incurred by the Fund above its management fee, excepting any expenses not covered under the Expense Limitation Agreement. The Board received a description of the methodology and screening criteria used by Broadridge to determine the mutual funds and share classes in the Expense Group. While the Board recognized that comparisons between the Fund and Expense Peer Group may be imprecise, the comparative, independently-selected information provided by Broadridge assisted the Board in evaluating the reasonableness of the Fund’s Management Fee Rate and net expense ratio.

Based on its consideration of the factors and information it deemed relevant, including the features of the Fund as described above, the Board concluded that the expense structure of the Fund supported the continuation of the Advisory Agreement.

PROFITABILITY AND ECONOMIES OF SCALE

The Board requested and received a report on Weiss’ revenue and expenses resulting from services provided to the Fund pursuant to the Advisory Agreement for the twelve months ended March 31, 2022. The Board noted that Weiss has subsidized the Fund’s operations since inception and has not yet recouped those subsidies. The Board further observed that Weiss’s profit from sponsoring the Fund had not been, and currently was not, excessive.

With respect to economies of scale, the Board reviewed the Fund’s operating history and noted that the Fund had experienced growth since it commenced operations. The Board then considered information regarding whether and the extent to which economies of scale may be realized as the Fund’s assets grow and whether the Fund’s fee structure reflects these economies of scale for the benefit of for shareholders. The Board considered that the Expense Limitation Agreement limits costs to shareholders and provides a means of sharing potential economies of scale with the Fund’s shareholders. The Board noted that it would have an opportunity to consider economies of scale in the context of future contract renewals as Weiss continues to expand its operations and the Fund grows.

ANCILLARY BENEFITS DERIVED FROM THE RELATIONSHIP WITH THE FUND

The Board received and considered information regarding ancillary or “fall-out” benefits to Weiss and/or its affiliates, if any, as a result of Weiss’s relationship with the Fund. Ancillary benefits could include, among others, benefits attributable to research credits generated by Fund portfolio transactions. In this regard, the Board considered that Weiss confirmed it had benefited firm-wide from research credits generated by Fund portfolio transactions over the past twelve months. Ancillary benefits could also include benefits potentially derived from an increase in Weiss’ business as a result of its relationship with the Fund (such as the ability to market to

WEISS ALTERNATIVE MULTI-STRATEGY FUND

BOARD CONSIDERATION OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) – CONTINUED OCTOBER 31, 2022

shareholders other potential financial products and services offered by Weiss, or to operate other products and services that follow investment strategies similar to those of the Fund). Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits received by Weiss and/or its affiliates, if any, were unreasonable.

CONCLUSIONS

In considering the renewal of the Advisory Agreement, the Trustees did not identify any one factor as all-important, but rather considered these factors collectively in light of the Fund's surrounding circumstances. After considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board unanimously approved the Advisory Agreement for an additional one-year term.

WEISS ALTERNATIVE MULTI-STRATEGY FUND

STATEMENT REGARDING THE FUND'S LIQUIDITY RISK MANAGEMENT PROGRAM (UNAUDITED) OCTOBER 31, 2022

In accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended, Series Portfolios Trust (the "Trust") has adopted and implemented a liquidity risk management program (the "Trust Program"). As required under the Trust Program, Weiss Multi-Strategy Advisers, LLC (the "Adviser"), the investment adviser to the Weiss Alternative Balanced Risk Fund (the "Fund"), a series of the Trust, has adopted and implemented a liquidity risk management program tailored specifically to the Fund (the "Adviser Program"). The Adviser Program seeks to promote effective liquidity risk management for the Fund and to protect Fund shareholders from dilution of their interests. The Board of Trustees (the "Board") of the Trust has approved the Adviser as the administrator for the Adviser Program (the "Program Administrator"). The Program Administrator has further delegated administration of the Adviser Program to its Liquidity Risk Management Committee. The Program Administrator is required to provide a written annual report to the Board and the Trust's chief compliance officer regarding the adequacy and effectiveness of the Adviser Program, including the operation of the Fund's highly liquid investment minimum, if applicable, and any material changes to the Adviser Program.

On July 28, 2022, the Board reviewed the Program Administrator's written annual report for the period June 1, 2021 through May 31, 2022 (the "Report"). The Report provided an assessment of the Fund's liquidity risk: the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of the remaining investors' interests in the Fund. The Adviser Program assesses liquidity risk under both normal and reasonably foreseeable stressed market conditions. The Program Administrator has retained ICE Data Services, Inc., a third-party vendor, to provide portfolio investment classification services, and the Report noted that the Fund primarily held investments that were classified as highly liquid during the review period. The Report noted that the Fund's portfolio is expected to continue to primarily hold highly liquid investments and the determination that the Fund be designated as a "primarily highly liquid fund" (as defined in Rule 22e-4) remains appropriate and the Fund can therefore continue to rely on the exclusion in Rule 22e-4 from the requirements to determine and review a highly liquid investment minimum for the Fund and to adopt policies and procedures for responding to a highly liquid investment minimum shortfall. The Report noted that there were no breaches of the Fund's restriction on holding illiquid investments exceeding 15% of its net assets during the review period. The Report confirmed that the Fund's investment strategy was appropriate for an open-end management investment company. The Report also indicated that no material changes had been made to the Adviser Program during the review period.

The Program Administrator determined that the Fund is reasonably likely to be able to meet redemption requests without adversely affecting non-redeeming Fund shareholders through significant dilution. The Program Administrator concluded that the Adviser Program was adequately designed and effectively implemented during the review period.

ADDITIONAL INFORMATION (UNAUDITED) – CONTINUED OCTOBER 31, 2022

AVAILABILITY OF FUND PORTFOLIO INFORMATION

The Fund files complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Part F of Form N-PORT, which is available on the SEC's website at www.sec.gov. The Fund's Part F of Form N-PORT may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. For information on the Public Reference Room call 1-800-SEC-0330. In addition, the Fund's Part F of Form N-PORT is available without charge upon request by calling 1-866-530-2690.

AVAILABILITY OF PROXY VOTING INFORMATION

A description of the Fund's Proxy Voting Policies and Procedures is available without charge, upon request, by calling 1-866-530-2690. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent period ended June 30, is available (1) without charge, upon request, by calling 1-866-530-2690, or (2) on the SEC's website at www.sec.gov.

QUALIFIED DIVIDEND INCOME/DIVIDENDS RECEIVED DEDUCTION

For the year ended October 31, 2022, certain dividends paid by the Fund may be reported as qualified dividend income (QDI) and maybe eligible for taxation at capital gains rates. The percentage of dividends declared from ordinary income designated as qualified dividend income was 4.05%.

For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the year ended October 31, 2022 was 3.40%.
